MG's are just the small toys one can get. Remember as a Sovereign you are unhindered by the regulations that the federal citizens have to follow. There is a separate set of paperwork dealers must fill out to cover there butts on where the weapons and other items went. That is what a Sovereigns alien ID number dose for him. It's just a way of accounting for where it went. Yes you can build any weapon you like. To learn more, especially details on the paperwork you should learn more about Sovereignty first. After some basic knowledge we will walk you through everything the first time to help you get the hang of it. Finding real freedom for the first time is like a babies first steps. You haven't really done it before so you don't know what it's like. But we can change that. Then you can literally do most anything you want so long as it interferes with no others rights or person. Near WI by chance?

How does the untaxed registering of a machinegun work. Can one still build auto weapons and how is the paperwork done.
